

American Concrete Essentials

Shave-master™ and Blades

The Shave-master™ is a floor machine designed specifically to make concrete corrections and coatings removal simple. It does this by creating evenly spaced grooves. The grooves can also be used to create traction and reduce the risk of slip and fall on ramps and sidewalks.

Applications

- ◆ Prep Surfaces
- ◆ Coatings Removal
- ◆ Aggregate Exposure
- ◆ Joint Repair
- ◆ Grooving
- ◆ Lippage Removal
- ◆ Paint Striping Removal
- ◆ Improve Floor Flatness

| Technical Data: | SM-320 |
|-------------------|-----------------|
| Motor | 15 HP |
| Volt | 460 - 3 phase |
| Working Width | Up to 13" |
| Overall L x W x H | 43" x 46" x 24" |
| Weight | 716 lbs |
| Blade diameter | 10" |
| Cutting depth | Up to 1/2" |

| Item # | Description | Price* |
|---------------------------------|---------------------------------------|-------------|
| 25100 | Shave-master™ | \$23,500.00 |
| Parts & Accessories: | | |
| 25200 | Blades 10" x .110" x Hex Arbor x 10mm | \$55.00 |
| 25201 | Blades 10" x .250" x Hex Arbor x 10mm | \$109.00 |

*All prices are subject to change without notice.

NOTE: Unit comes equipped with 25 each .250 blades. Shown with 50 each .110 blades.

Features

- ◆ Self-Propelled Hydrostatic Drive
- ◆ Forward and Reverse
- ◆ Speed Control
- ◆ Adjustable Depth Control
- ◆ Built-In Vacuum Port
